... we know what your problem is!

**YOU HAVE AN UNTAMED, UNMANAGEABLE, EXPENSIVE ,
OBSOLETE 800-LB GORILLA PACS ON YOUR BACK.**

*Now is the time to replace your obsolete, expensive and unmanageable PACS with a truly affordable, modern, fast, flexible, reliable and secure solution. To find out why CoActiv EXAM-PACS is your ideal **next** PACS, simply turn the page over...*

*(Also, if you are considering your **first** PACS, simply turn the page over...)*

[Thinking About a First PACS or Replacing an Obsolete, Expensive PACS?](#)

PACS delivers a host of benefits to all radiology sites, large and small. Once you've made the decision to go digital, selecting the **right PACS**—the lifeblood of your workplace—is one of the most important decisions you will make.

Not all PACS are created equal! With CoActiv EXAM-PACS[®], you can enjoy the full benefits of your digital conversion immediately, seamlessly and cost-effectively—with the assurance that your PACS will keep abreast of the technology curve with a proven upgrade path. And at significantly lower cost than competing, less functional PACS solutions.

Now Your Facility Can Enjoy All the Benefits You Expect from PACS, from A to Z ... Plus a Whole Lot More ... For Far Less Cost ... With CoActiv EXAM-PACS:

CoActiv EXAM-PACS is Fast & Easy To Install (less than 30 days), Fast & Easy To Learn (less than 1 hour), and Easy To Afford (usually costs LESS than you are now paying for Film and Film Related Expenses). Ask to speak to one of our many clients who installed EXAM-PACS for less than their film budget!

Advanced radiology reading features – Advanced measurement and image manipulation tools & built-in 3D processing *at no extra cost* are just some of the enhanced radiology reading tools that come standard on this remarkable technology.

Anywhere, anytime reading – Advanced web-based architecture lets radiologists work from multiple locations or offices - even from home!

Cost savings – EXAM-PACS is priced at one-half to one-third the cost of other PACS solutions and runs on standard readily available computer components without any costly proprietary hardware and includes a 5-Year on-site warranty.

Enhanced workflow – CoActiv EXAM-PACS is a full-featured web-based PACS that delivers a full range of cutting edge features. It sets a new standard for PACS performance...with ultra-fast installation and remarkable ease-of-use.

Exam reading as you like it – EXAM-PACS allows exams to be viewed automatically according to user preferences. Unique and flexible display protocols enable image viewing in consistent screen layouts, which can be easily customized. EXAM-PACS supports a wide range of Radiology-Class LCD Displays and versatile multi-monitor configurations.

Installation and Support – CoActiv products include installation and immediate live phone support by our dedicated staff, on call 24/7/365 to provide high quality help *when you need it*. Real-time web-based support and training is included.

Multi-specialty imaging – From **radiology, mammography, cardiology** and **orthopedics** to **radiation therapy**, EXAM-PACS provides all the specialized tools you need for use with a full range of imaging specialties.

Referring physician communications – Your communication with referring physicians is seamless and automatic over the web in a background mode... no searching and no waiting for slow study and report downloads with EXAM-PACS.

Scalability – CoActiv EXAM-PACS is the first PACS that is both architecturally and financially scalable to accommodate sites ranging from the smallest imaging centers to the largest multi-site enterprise hospital campuses. And it will grow with you. Adding a new modality or site is actually easier than adding a new PC to your network.

Security – EXAM-PACS is FDA certified, fully HIPAA-compliant and incorporates the latest IT security technology.

Specialized exam and imaging-related data support- Do you use breast specific gamma imaging or have a need to store surgical and radiation therapy images and data digitally? *Only EXAM-PACS supports all medical imaging data!*

Speed – The advanced PACS application enables ultra-fast retrieval of local or archived exams—in seconds, not minutes, whether your archive contains 25,000 or a million studies. Full resolution images arrive at the user's workstation as fast as your network bandwidth allows.

Redundant, secure archiving – All EXAM-PACS users may optionally store images in CoActiv's EXAM-VAULT[®] providing automatic, secure HIPAA-compliant QUAD-REDUNDANT ARCHIVING[®] in four separate locations, including live on redundant, mirrored, Tier-IV data centers. All exams are also provided on 25-year archival DVDs.

Unimaginable extras – CD burning, electronic referrals, unique Auto-Fetching of priors, easy and affordable HIS/RIS integration and, much, much more, are included in EXAM-PACS's standard price—unheard of in the industry.

ZZZZZ, "The Good Night's Sleep Guarantee" – All EXAM-PACS users enjoy the peace-of-mind of knowing that their system will support their busy workflow and that their data is safe and secure, today and into the future. We guarantee it in writing with the industry's only 100% Up-Time SLA (Service Level Agreement).

Whoever said PACS has to be difficult, hard-to-install and expensive?

CoActiv Medical, 900 Ethan Allen Highway, Ridgefield, CT 06877 – 877-COACTIV (262-2848)
